

Second Global Conference on Social Franchising for Health October 22–24, 2014 | Cebu, Philippines

Trainers

Nirali Chakraborty, *Population Services International*

Dr. Nirali Chakraborty is the Research Advisor for Reproductive Health at PSI, overseeing the quality and dissemination of PSI's reproductive health related research internationally. Nirali received her PhD in International Health, with a concentration in Health Systems, from the Johns Hopkins Bloomberg School of Public Health in 2010. She previously worked as a consultant for the World Bank and Broad Branch Associates, specializing in health systems and performance based financing, and has expertise in quantitative research methods. Nirali has conducted research in, and published articles on, social franchising, health equity, health workforce performance and maternal health. She is fluent in English and French, and proficient in 3 Indian sub-continent languages, Gujarati, Hindi and Bengali.

Daniel Crapper, *Population Services International/Myanmar*

Mr. Crapper has over eighteen years of experience leading, managing, and inspiring people with diverse backgrounds and cultures in both the private and not-for-profit sectors. Achievements include creating long term strategic vision for organizations to enable them to expand health impact, fostering innovation, building meaningful enabling relations with government officials and stakeholders, and raising funding from a wide portfolio of donors to enable these visions to be realized. Working primarily in East and Southern Africa and Southeast Asia, Daniel has managed a diverse portfolio of projects, including social marketing and social franchising of HIV, reproductive health and family planning, malaria and other maternal and child health services. He qualified as a chartered accountant in the UK in 1997, holds a Bachelors and Masters degree in Economics from Cambridge University and speaks fluent English and French.

Kenzo Fry, *Consultant*

Kenzo is a consultant specialising in poverty measurement, costing and impact modelling. He previously ran the Impact Analysis team at Marie Stopes International, which is responsible for designing the organisation's performance metrics, impact modelling, and overseeing global reporting such as MSI's Global Impact Report. He also has extensive field experience running surveys and studies for public health programmes in Indonesia. Kenzo has an MSc in Public Health from the London School of Hygiene and Tropical Medicine.

Millicent Olulo, *PharmaAccess Foundation*

Millicent Olulo is the Program Director, SafeCare Kenya at PharmAccess Foundation based in Kenya. PharmAccess is a Dutch not-for-profit organization dedicated to the strengthening of health systems in sub-Saharan Africa. The SafeCare approach is based on internationally acknowledged (ISQua) quality standards and dissects the improvement process of healthcare providers in survey-able, measurable steps.

Second Global Conference on Social Franchising for Health October 22–24, 2014 | Cebu, Philippines

SafeCare program in Kenya has surveyed approx. 400 health facilities funded by various programs including APHIA, NHIF and Africa Health Market for Equity among other current engagements. Prior to this, Millicent worked at Price Water House coopers monitoring World Bank funds disbursement. For over a decade, she has worked in research, implementing health related projects, health insurance and service delivery. Previously worked for International Centre for Reproductive Health, AAR, Kenyatta National Hospital and Mombasa hospital among others. She is a quality advisor and surveyor with a Clinical background and holds a Master's degree in health and development.

David Valentine, *Population Services International/Thailand*

Mr. David Valentine has more than 23 years of experience in managing healthcare projects around the world in the private, not-for-profit and academic sectors. Key achievements include launching: a for-profit male healthcare network in the UK; the Sun Quality Health social franchise network in Burma; and, more than 50 social marketed products and services. He holds a Bachelors degree in Pharmacology and Physiology and a Masters degree in Health Planning and development. He has passion for marketing and innovations and has designed/managed social marketing/franchising projects in Burma, Bhutan, Cambodia, Nepal, Nigeria, Malawi, Thailand and USA. David currently acts as PSI's Social Franchising and Communications advisor in Thailand.
